What's Stopping You From Switching to IT?

Lack of Technical Skills?

Limited proficiency in IT skills may hinder a smooth transition.

No Relevant Experience?

Without hands-on experience, entering the IT field can be challenging.

Not Certain About Industry Requirements?

Not knowing the specific demands and trends in the IT sector may create hesitation.

No Clear Path or Guidance?

Absence of a structured plan or guidance can make the transition to IT seem daunting and unclear.

Got Placed In An IT Job

"I joined the IT course training academy with the hope of learning new skills and getting a job in the IT industry. I was not disappointed. BIX IT Academy offered an all-around curriculum that covered almost all the topics I wanted to learn about. There were ample assignments, projects, and mock interviews. They also helped me with resume writing and career counselling. Thanks to the academy, I was able to land a job as a software engineer at a reputed IT company. I am very happy with my career choice and I owe it to the academy for making it possible."

Amazing Teaching Skills

"Shoutout to the BIX IT team! The mentors do an amazing job of explaining everything. They start with the basics and build up to advanced stuff in a way that's easy to understand, even for beginners. And they make it fun! Learning is so much more enjoyable when you're having a good time. Keep up the great work, and I hope even more students get to experience your teaching!"
